

GAS FURNACES

90%+ AFUE

THE FURNACE THAT HAS EVERYTHING
YOU NEED, PRICED RIGHT.

SOME DECISIONS ARE TOUGH. THIS ONE ISN'T.

When you consider a Breeze33[®] gas furnace, quality is a given. You're getting peace of mind with great features and a smart design—and best of all, you get it priced right.

EFFICIENCY RATINGS

Consider the AFUE (Annual Fuel Utilization Efficiency) ratings that measure how efficiently the fuel is used by the furnace. Higher numbers mean greater efficiency and lower gas bills for you.

EVERYDAY SAVINGS

The blower in a gas furnace operates all year long to circulate hot air or cold air throughout your home. Compared to a fixed-speed (PSC) blower motor, a constant torque or variable-speed blower motor will provide everyday savings on your electric bill.

IS IT TIME TO REPLACE YOUR GAS FURNACE?

It can be hard to decide whether to repair or replace. Here are a few things to keep in mind when you're deciding:

- **Age of the furnace** – With the average life span of furnaces being 10-12 years, it's worth considering investing in a new one, as repairs may not be worth the investment.
- **Updates** – New technology is making furnaces more efficient and easier to use and control. Rigorous run testing of each furnace in our factory helps ensure reliable performance in your home.
- **Repair costs** – Once repair costs exceed 50% of the cost of a new unit, a new purchase might be in order. This is especially true if you'll be staying in your house for several more years.

WHATEVER YOUR NEEDS, A
BREEZE33® FURNACE IS HIGH
QUALITY, PRICED RIGHT.

96% AFUE

96G2V

PERFECTLY CONTROLLED HEAT AND HUMIDITY.

- Variable-speed motor keeps temperature and humidity levels perfectly controlled
- Two-stage operation adjusts heat output to optimize comfort and efficiency
- Gradual motor acceleration and deceleration for quieter operation

96% AFUE

96G1E

ENERGY EFFICIENT AND RELIABLE COMFORT.

- Constant torque motor maintains steady airflow and even temperatures
- Uses up to 1/3 less energy than a fixed-speed blower
- 96% AFUE efficiency rating means 96% of fuel is turned into usable heat

92% AFUE

92G1E

EFFICIENT HEATING PERFORMANCE.

- Constant-torque motor produces consistent airflow and even temperatures
- Up to 1/3 less energy than a conventional blower

PEACE OF MIND

All gas furnaces are factory run-tested to ensure reliable performance in your home. They come with a 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger.**

**Applies to residential applications only.
